EDUCATION

University of Ibadan

Medicine and Surgery

MB;BS (in-view)

August 2022

Efficient full stack developer with experience working on all phases of project lifecycle and deploying web applications to production. I aim to leverage a proven knowledge of application development, web design, and proficiency in a wide range of technologies to successfully fill the web developer role at your company. I can be relied upon to help your company achieve its goals.

WORK EXPERIENCE

JAN 2021 - OCT 2021

FRONT END DEVELOPER

Lendanarm NG Ibadan, Nigeria

- Analyzed user needs to determine technical requirements.
- Maintained understanding of current web technologies or programming practices through continuing education, reading, or participation in professional workshops.
- Incorporated technical considerations into web site design plans, such as budgets, equipment, performance requirements, and legal issues including accessibility and privacy.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

FEB 2019 - JAN 2021

FULL STACK DEVELOPER

Freelance

- Performed and directed web site updates.
- Analyzed user needs to determine technical requirements.
- Evaluated code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.
- Developed databases that support web applications and web sites.
- Managed development milestones from initial steps through final delivery.
- Took initial concepts and developed project plans.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Reviewed code, debugged problems and corrected issues.
- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.

CERTIFICATION

Udacity Nanodegree

Programming for Data Science with
Python
2021
